Key Features

- Common hardware, low life-cycle cost
- Modules support growth of up to 32 crew stations and 88 audio channels with no degradation in performance
- Open system architecture network structure based on accepted industry standards
- Full system redundancy for mission-critical crew stations
- Ethernet interface
- Low Size, Weight and Power-Cost (SWaP-C)
- Meets red/black isolation requirements
- Accommodates simulcast and radio relay operations
- Backup mode for emergency operation
- Accommodates wireless crew members (TruLink®)
